praised across the country for its ability to help students realize their highest potentials for health, fitness, and well-being. Each chapter guides students in developing a personalized physical fitness and wellness program by allowing them to chart and update their progress as they meet their goals. The Hoegers integrate activities throughout each chapter (rather than placing them at the ends of chapters) so students can complete each fitness and wellness experience as the concepts behind those experiences are introduced. Plus, four powerful resources--the PROFILE PLUS 2005 CD-ROM, PERSONAL DAILY LOG, INFOTRAC COLLEGE EDITION, and the HEALTH/FITNESS AND WELLNESS INTERNET EXPLORER--are all automatically packaged with this edition!

PROFILE PLUS gives students unprecedented flexibility in making lifestyle changes by providing additional assessments, a behavior change plan, nutrition analysis tools, and exercise logs and prescriptions. It also includes interactive quizzing to help them master and remember key concepts. A PERSONAL DAILY LOG allows students to track their progress in achieving their personal goals. Included are tips for achieving test success, a variety of records and tables to track body composition and body mass index, exercise and strength training record forms, and more! The HEALTH/FITNESS AND WELLNESS INTERNET EXPLORER and four months of access to INFOTRAC COLLEGE EDITION provide students with additional resources for obtaining information about key topics. This all

inclusive package gives students a wealth of tools to help them explore, experience, and better understand the benefits of a healthy lifestyle.

Health, Wellness, and Physical Fitness is designed to teach students everything they need to know to make informed decisions for a lifetime of wellness. Aligned to Common Core State Standards, the activities in this workbook teach students about heredity, exercise, and nutrition, as well as tobacco, illegal drugs, mental health, and becoming a wise consumer. Self-assessments, real-world situations, games, puzzles, and quizzes reinforce these important lessons while also building strong, independent learners.

Physical inactivity is a key determinant of health across the lifespan. A lack of activity increases the risk of heart disease, colon and breast cancer, diabetes mellitus, hypertension, osteoporosis, anxiety and depression and others diseases. Emerging literature has suggested that in terms of mortality, the global population health burden of physical inactivity approaches that of cigarette smoking. The prevalence and substantial disease risk associated with physical inactivity has been described as a pandemic. The prevalence, health

impact, and evidence of changeability all have resulted in calls for action to increase physical activity across the lifespan. In response to the need to find ways to make physical activity a health priority for youth, the Institute of Medicine's Committee on Physical Activity and Physical Education in the School Environment was formed. Its purpose was to review the current status of physical activity and physical education in the school environment, including before, during, and after school, and examine the influences of physical activity and physical education on the short and long term physical, cognitive and brain, and psychosocial health and development of children and adolescents. Educating the Student Body makes recommendations about approaches for strengthening and improving programs and

policies for physical activity and physical education in the school environment. This report lays out a set of guiding principles to guide its work on these tasks. These included: recognizing the benefits of instilling life-long physical activity habits in children; the value of using systems thinking in improving physical activity and physical education in the school environment; the recognition of current disparities in opportunities and the need to achieve equity in physical activity and physical education; the importance of considering all types of school environments; the need to take into consideration the diversity of students as recommendations are developed. This report will be of interest to local and national policymakers, school officials, teachers, and the education community, researchers, professional
