Written by renowned experts in their respective fields, Schaum ' s Outlines cover everything from math to science, nursing to language. The main feature for all these books is the solved problems. Step-by-step, authors walk readers through coming up with solutions to exercises in their topic of choice. 490 fully solved problems Information on costing, capital budgeting, quality, variances, and inventory Excellent preparation for the CPA, CMA, SMA, and CGA exams Supports and supplements the leading textbooks in managerial accounting Appropriate for the following courses: Management Accounting, Cost Accounting, Accounting for Management, Managerial Accounting Easy-to-follow review of managerial accounting Supports all the major textbooks for managerial accounting courses

Providing coverage of topics such as relevant costs for decision making, capital budgeting decisions, segment reporting and decentralization, this text offers a glimpse into how real companies use managerial accounting concepts in their practical applications. Authors Eric Noreen, Peter Brewer, and Ray Garrison have crafted a streamlined Managerial Accounting book that is perfect for non-accounting majors who intend to move into managerial positions by focusing on the fundamentals to develop the conceptual framework managers need to succeed. This is done by adhering to the three core standards: FOCUS Noreen/Brewer/Garrison pinpoint the key managerial concepts students will need in their future careers. With no journal entries or financial accounting topics to worry about, students can focus on the fundamental principles of managerial accounting. The manager approach in Noreen allows students to develop the conceptual framework needed to succeed, with a focus on decision making and analytical skills. RELEVANCE Building student interest with its insightful Business Focus vignettes opening each chapter, current In Business examples throughout the text, and tried-and-true end-of-chapter material, students will always see the real-world applicability of Noreen/Brewer/Garrison. BALANCE There is more than one type of business, and so Noreen/Brewer/Garrison covers a variety of business models, including nonprofit, retail, service, wholesale, and manufacturing organizations. Service company examples are highlighted with icons in the margins of the text

Business Accounting has been developed specifically for the needs of non-specialist students studying accounting as part of another degree. The authors explain the key concepts clearly and concisely, using examples, cases and real company data to contextualise the theory. Ethics, corporate governance and corporate social responsibility is given more prominence in this new edition and a new chapter on the statement of cash flows has been added. The number of questions in the book and online has been increased substantially to provide students with more opportunity to test their understanding and provide lecturers with more materials to perform assessments.

Following a successful debut edition, this new Second Edition of Managerial Accounting for the Hospitality Industry builds on its strengths of clear organization and the ease with which students work through it. This new edition includes more basic math support for students and a more developed inclusion of ethical considerations and global changes both in accounting systems and in the hospitality industry.

Learn the essentials of management accounting in a flash! This hands-on self-teaching guide covers the fundamentals of management accounting, including cost accounting, how to develop and use information for costing products and services, decision making, operational budgeting, performance evaluation, and other important subjects and provides an update on recent developments in the field. You will learn the key aspects of management accounting as they apply to both for-profit companies and nonprofits.
