The History of Canadian women is the study of the historical experiences of women living in Canada and the laws and legislation affecting Canadian women. In colonial period of Canadian history, Indigenous women's roles were often challenged by Christian missionaries, and their marriages to European fur traders often brought their communities into greater contact with the outside world.

Mammals (from Latin mamma "breast") are a group of vertebrate animals constituting the class Mammalia (/ m ɑ m e l i /), and characterized by the presence of mammary glands which in females produce milk for feeding (nursing) their young, a neocortex (a region of the brain), fur or hair, and three middle ear bones. These characteristics distinguish them from reptiles and birds, from ...
