government's massive money printing and borrowing in response to it-is putting us on a faster track to the coming Aftershock. What is FAKE MONEY? Massive government money printing that increased the US money supply by more than 800% since 2008, printing more money in just two months of 2020 than during the Financial Crisis in 2008 and 2009. Mammoth federal debt now at a staggering \$27 trillion, up \$3 trillion in 2020 and on track for even more in 2021. What is the REAL DANGER? All US economic growth since the Financial Crisis entirely due to government borrowing. All of

this is an indispensable first draft of history and blueprint for how we can move forward." –Ben Rhodes

The COVID-19 pandemic killed millions, infected hundreds of millions, and laid bare the deep vulnerabilities and inequalities of our interconnected world. The accompanying economic crash was the worst since the Great Depression, with the International Monetary Fund estimating that it will cost over \$22 trillion in global wealth over the next few years. Over two decades of progress in reducing extreme poverty was erased, just in the space of a few months. Already fragile states in

After his passing, Nadia's stepmother weighed her down with a revelation that was either a bombshell secret or a lie, rife with shaming innuendo. With these and other ruptures, Nadia arrived in New York as a young woman feeling stateless, motherless, and uncertain about her future, yet eager to find her own identity. What followed, however, were periods of depression in which she struggled to hold herself
