I haven't had very many puppies so I bought "Art and Science" a few months ago in hopes of getting more ideas about the baby puppy stuff--the socialization, potty training, crate training, etc. aspect of puppy raising. However it really doesn't cover that aspect of puppy raising very much so I was disappointed.

The Monks of New Skete THE ART OF RAISING A PUPPY The authors of the classic guide How to Be Your Dog's Best Friend now tell you everything you need to know about the crucial first months of your puppy's life. From the decision to adopt a pup through the practical steps of choosing the right breed, preparing your home, caring for your new charge, and practicing basic obedience exercises, the Monks of New Skete offer clear, compassionate guidelines for raising a puppy. Renowned for breeding German shepherds, the Monks train their own beautiful dogs, and dogs of any breed, according to a unique program based on understanding canine behavior and enhancing the bond between dog and owner. This communion begins in puppyhood and is based on deep respect and affection. Improper care, poor training, or a lack of attention during the early months can lead to problem behaviors that become increasingly difficult to alter as your dog matures. By learning to gently assert your dominance from the start, you'll build a lasting and loving relationship with your pup. This complete guide, illustrated with more than eighty black-and-white photographs, explains the stages of puppy development, how to communicate with your pup, how to begin a complete training program, and how to deal with common problems like chewing, jumping up, and paper-training. The kind of fulfillment a solid relationship with your pup can bring is demonstrated in the stories of three dogs who have assumed special places in their owners' lives. The Art of Raising a Puppy is an essential source of wisdom, information, and inspiration for anyone who loves and cares for a puppy. As a community, the Monks of New Skete have been breeding, raising, and training dogs for more than twenty years. New Skete Monastery is located in Cambridge, New York.

Darren Weeks is Canada's most prominent financial educator. He is the Founder of the Fast Track Group of Companies, an acclaimed solutions-based financial literacy firm and one of the nation's fastest-growing companies. For nearly a decade and a half, Darren has spoken to hundreds of thousands of people across North America, Europe and Latin America about how to become financially independent. He is an advocate of learning how to create wealth through business and investment, and believes that this vital knowledge is lacking from traditional education. In fact, in every country that he has spoken Darren has seen that schools do not teach their students to manage money. Darren has made it his mission to fill that void by providing financial education to people across the world. He went from an average middle-class upbringing to raising hundreds of millions of dollars in investor capital, owning nearly 5,000 real estate properties, millions of dollars in energy assets and acquiring two cruise ship terminals in the Caribbean. All of this was accomplished by educating himself on how to do it and then taking action. There is no greater expert on the art of raising capital from investors and no person more committed to sharing this information than Darren Weeks.

Although gym membership is on the increase, the way people actually exercise in the gym is rarely correct and frequently causes injury. Activities that should be pleasurable and fulfilling often end up being frustrating, can cause injury or are simply regarded as boring. Often the desired effects are not achieved due to bad technique. 'Master the Art of Working Out' teaches us how to approach our gym workout in a new and refreshing way. We are encouraged to look at working out as an art rather than just a means to an end. Balk and Shields have developed a way of improving a gym workout using the principles of the Alexander Technique. This simple method promotes coordination, balance, posture, the importance of the relationship between the head neck and back, body awareness and efficient body use. The book teaches that if you focus on what you are doing and all these things are done properly, then the workout will achieve the desired effect. The author look at all aspects of gym exercise including resistance training, using gym machines, fitness classes including aerobics, step, pilates, yoga and Tai chi. The book has illustrations showing the wrong and right technique.

In this new book, renowned dog trainer Kathy Sdao reveals how her journey through life and her decades of experience training marine mammals and dogs led her to reject a number of sacred cows including the leadership model of dog training.
