Google Discover is a Google feature that offers content to mobile users based on their interests, without them having to perform a search. So far, Google has always been reactive, right? The user types in a keyword, and only then does the engine provide links as an answer on the search results page. This Google service remains the same.

Discover is a credit card brand issued primarily in the United States. It was introduced by Sears in 1985. When launched, Discover did not charge an annual fee and offered a higher-than-normal credit limit, features that were disruptive to the existing credit card industry. A subsequent innovation was "Cashback Bonus" on purchases. Most cards with the Discover brand are issued by Discover Bank, formerly the Greenwood Trust Company. Discover transactions are processed through the Discover Network
